

REASON #16

the better to see you with

Better medical treatment starts with better medical diagnosis. In radiology, that means staying ahead of the technology curve. For you, it means less invasive breast imaging, virtual colonoscopy, 3-D CT and Boston's first PET/CT scanner. And because our services are provided on site, patients benefit from shorter wait times and faster physician feedback. See for yourself by visiting www.bidmc.harvard.edu or by calling 800-667-5356.
