

REASON #8

making heartburn a quaint memory of the early 21st century

Our gastrointestinal services all have one thing in common – a team of renowned gastroenterologists and surgeons working together to diagnose and treat what ails you. And our focus on areas like heartburn, inflammatory bowel disease, colon cancer screening and pancreatic disease is helping to make more than a few stomachs rest easy. Find out how our Digestive Disease Center can benefit you by visiting www.bidmc.harvard.edu or calling 800-667-5356.
